

Media giants like Clear Channel Communications control well over 1000 radio stations making local programing nearly nonexistent. There are others that control not only radio, but, television news and regional newspapers. I am writing to urge you to protect local broadcasting by limiting the ability of media giants to monopolize the airwaves and expand community radio giving local citizens access to their airwaves. Low power FM radio is one way to achieve this goal and I urge you to support it, but, it is not the only means to insure citizen access to our airwaves.
